

Xuanlin Wang worked on the natural material and made the relationship with the human body for discussing the environmental issues, meanwhile, questioning the balance between environment and art. Bio-system is a material system created by Xuanlin Wang. In this system, 100% of the material resources came from nature and it could return to nature, like a natural ecological cycle. "Temporary" is the essence and belief in this system. She is devoted to present beauty in an ephemeral way instead of perennial.

<Bio; O- infinitas>

Bio; O is a circle circular movement that is based on the construction of Bio-material on unlimited in any performing form. For "To_Be_Antwerp", she creates an innovative sculpture collection call; infinitas - with three compositions ' threads, bio-glue, and leaves'. Without any structure, the work was only built by the thread of the circle, each of the circle related and dominate to each other step by step, like the butterfly effect. There is no the end ; as it never start.
